Damian Loeb's exhibition, "Verschränkung and the Uncertainty Principle," is a painted journey of quiet, comfortable moments he captured of his wife throughout 7 years. His incredibly realistic and evocative paintings place the viewer in these encapsulated moments. The exhibition examines the inseparable connection between subject and object, model and artist, posing this voyeurism as not one-sided or passive, but an active relationship connecting the image and viewer.

Damian Loeb, Verschränkung and the Uncertainty Principle, [Acquavella Galleries](#), 18 East 79th St. New York, NY, through June 17th.
